Changes in PHRO Territory: January 2013

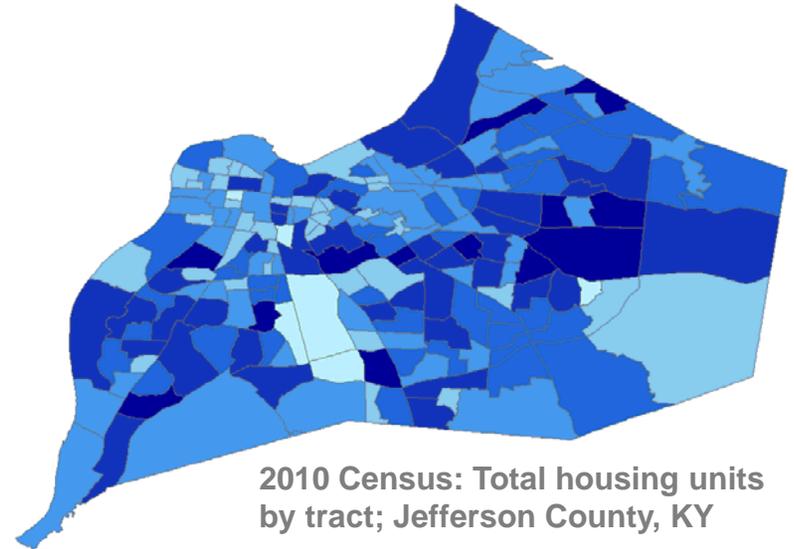

Mapping Census Data

Kevin Holmes, Geographer

Overview

- The MAF/TIGER Database (MTDB)
- Edges/Linear Features
- Polygons/Geographic Areas
- Mapping Exercises
- Post-Census & New Geographic Releases

The “TI” in TIGER

- **T**opological **I**ntegration amongst all linear feature classifications
- Efficient storage (national coverage!)
- Helps prevent data gaps (open polygons)
- Poses “Rubbersheeting” challenges

MAF/TIGER: Supporting the 2010 Census

- MAF/TIGER Accuracy Improvement Project (MTAIP): 2003-2008
- Address Canvassing: Spring 2009
- Geographic Partnership Programs
 - Local Update of Census Addresses (LUCA)
 - New Construction (NC)
 - Participant Statistical Areas Program (PSAP)
 - Redistricting Data Program (RDP)
 - Boundary & Annexation Survey (BAS)

MAF/TIGER: Supporting the 2020 Census+

- Geographic Support System Initiative (GSS-I)
 - Integrated program utilizing partnerships for:
 - Improved address coverage
 - Continual spatial feature updates
 - Enhanced quality assessment & measurement (QI)
 - May allow for a targeted address canvassing operation in 2019 (cost avoidance)
 - Better quality throughout the decade to support intercensal surveys (ACS, Pop. Estimates)

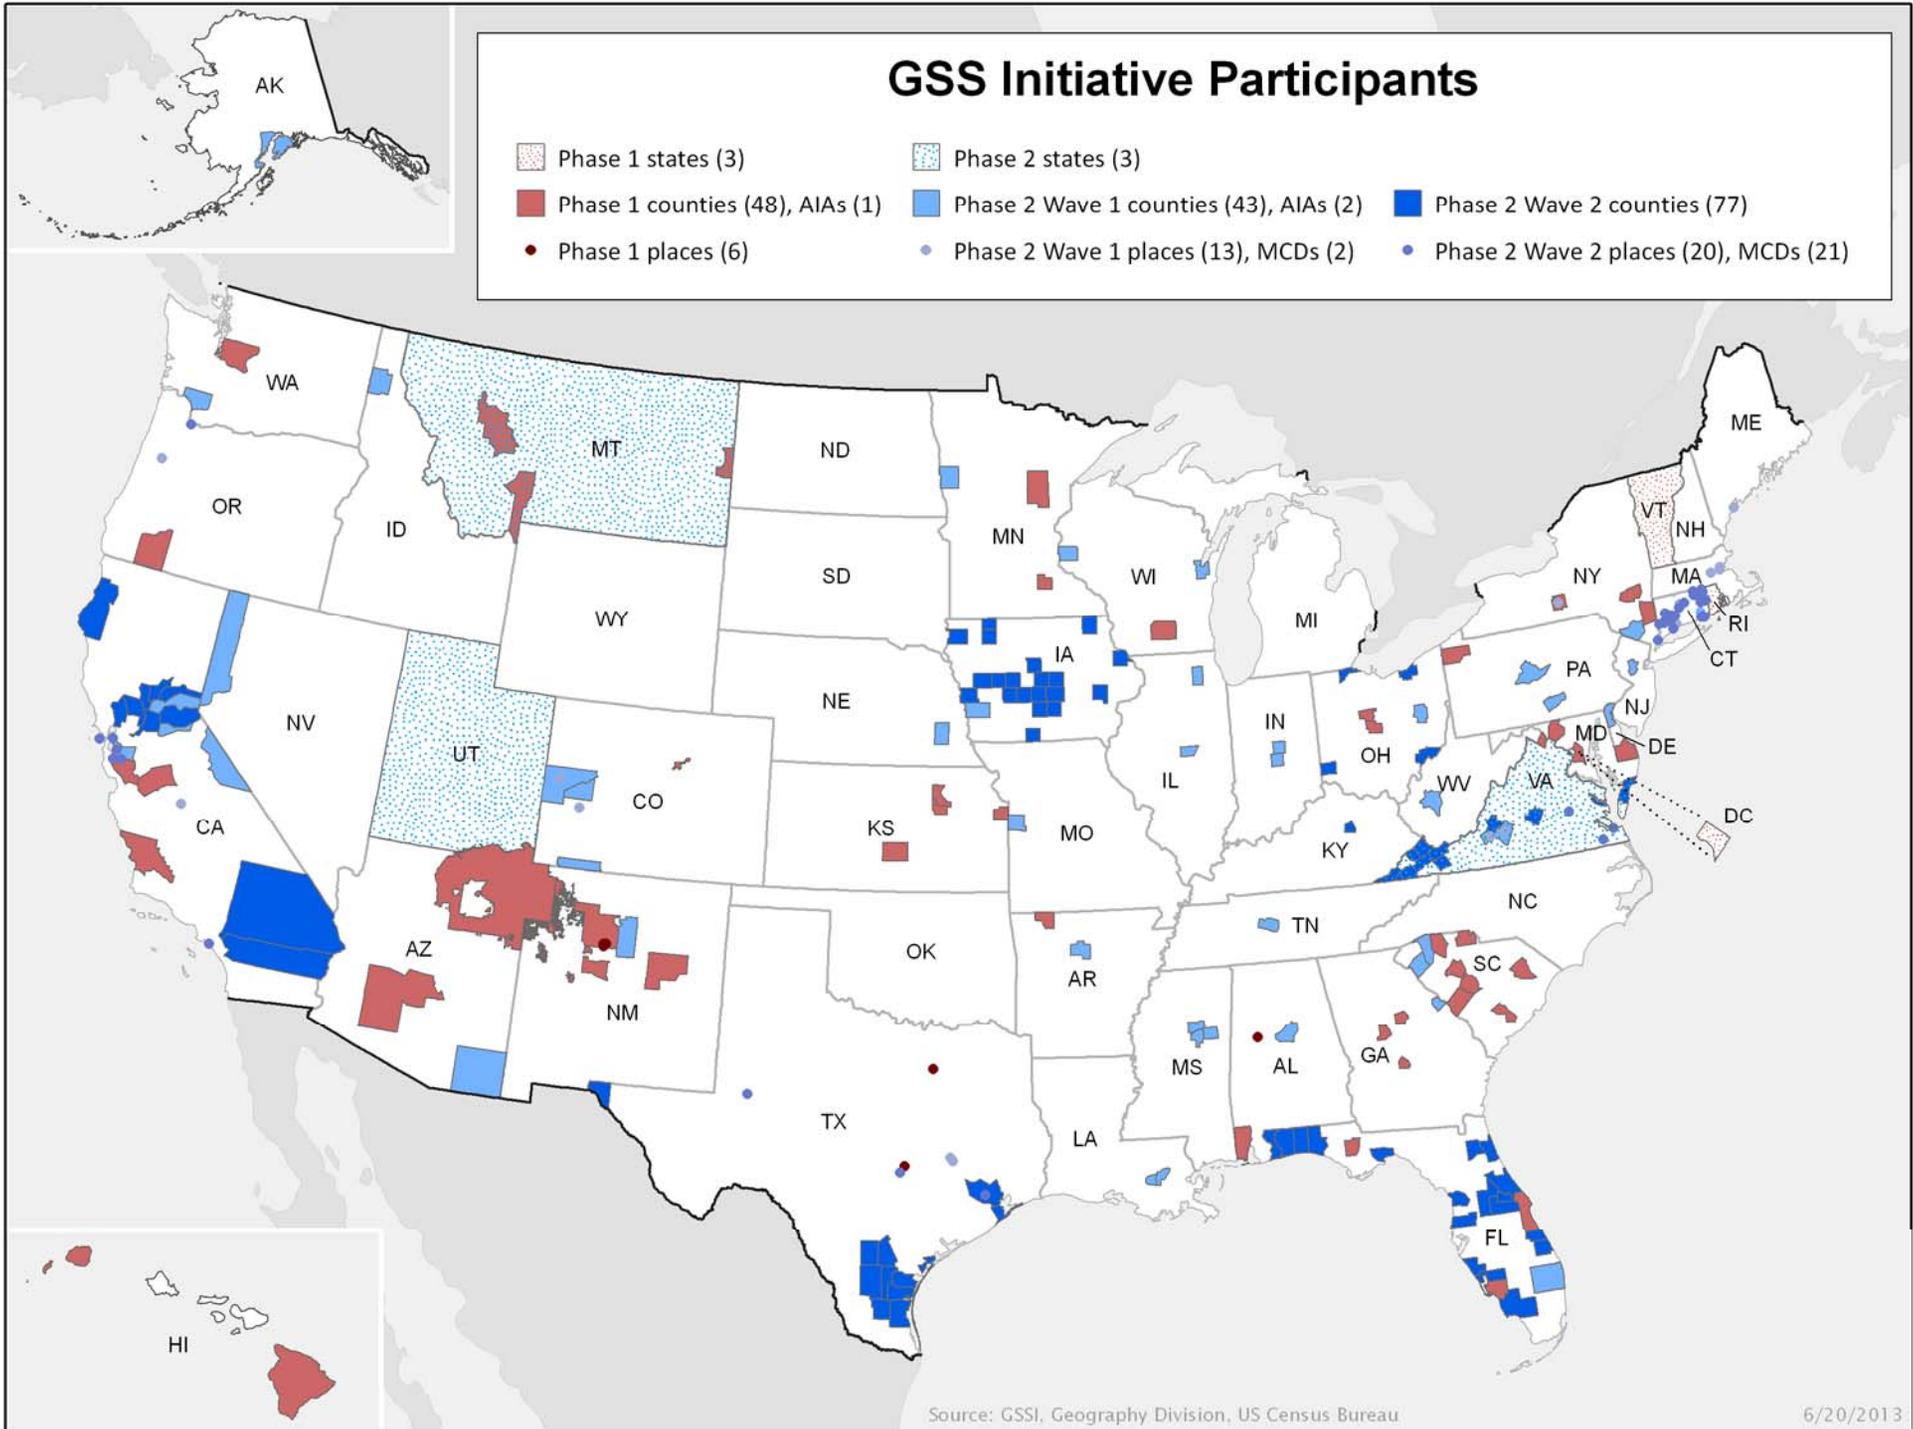

<http://www.census.gov/geo/www/gss/>

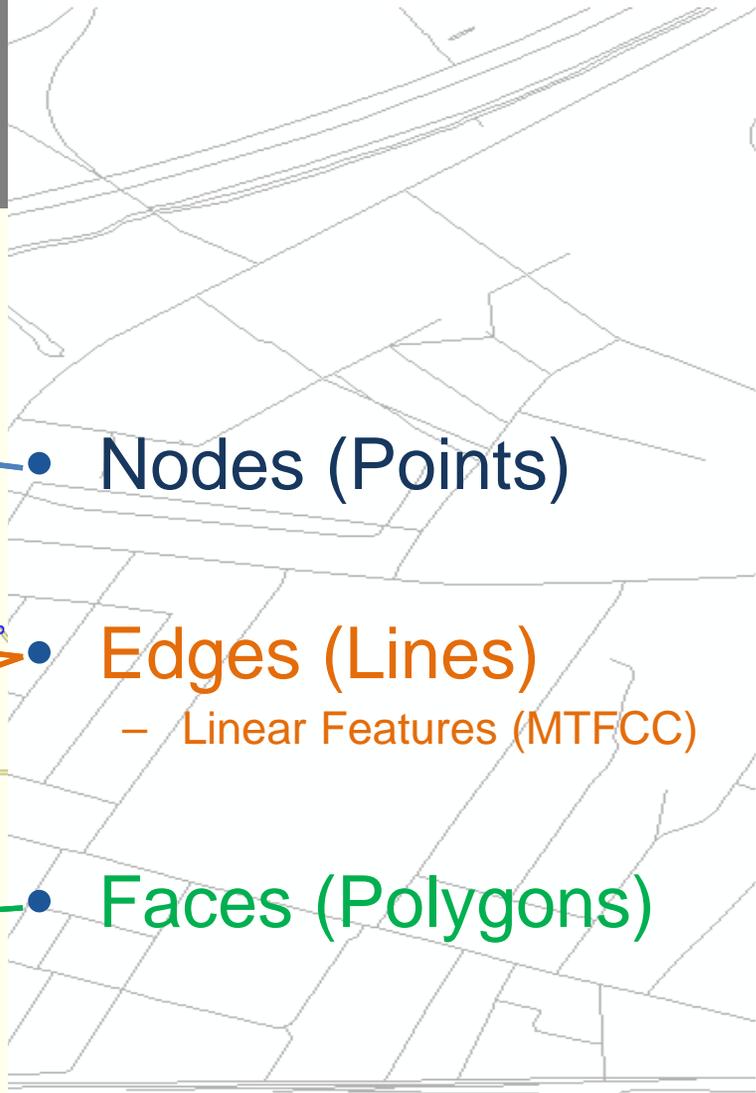

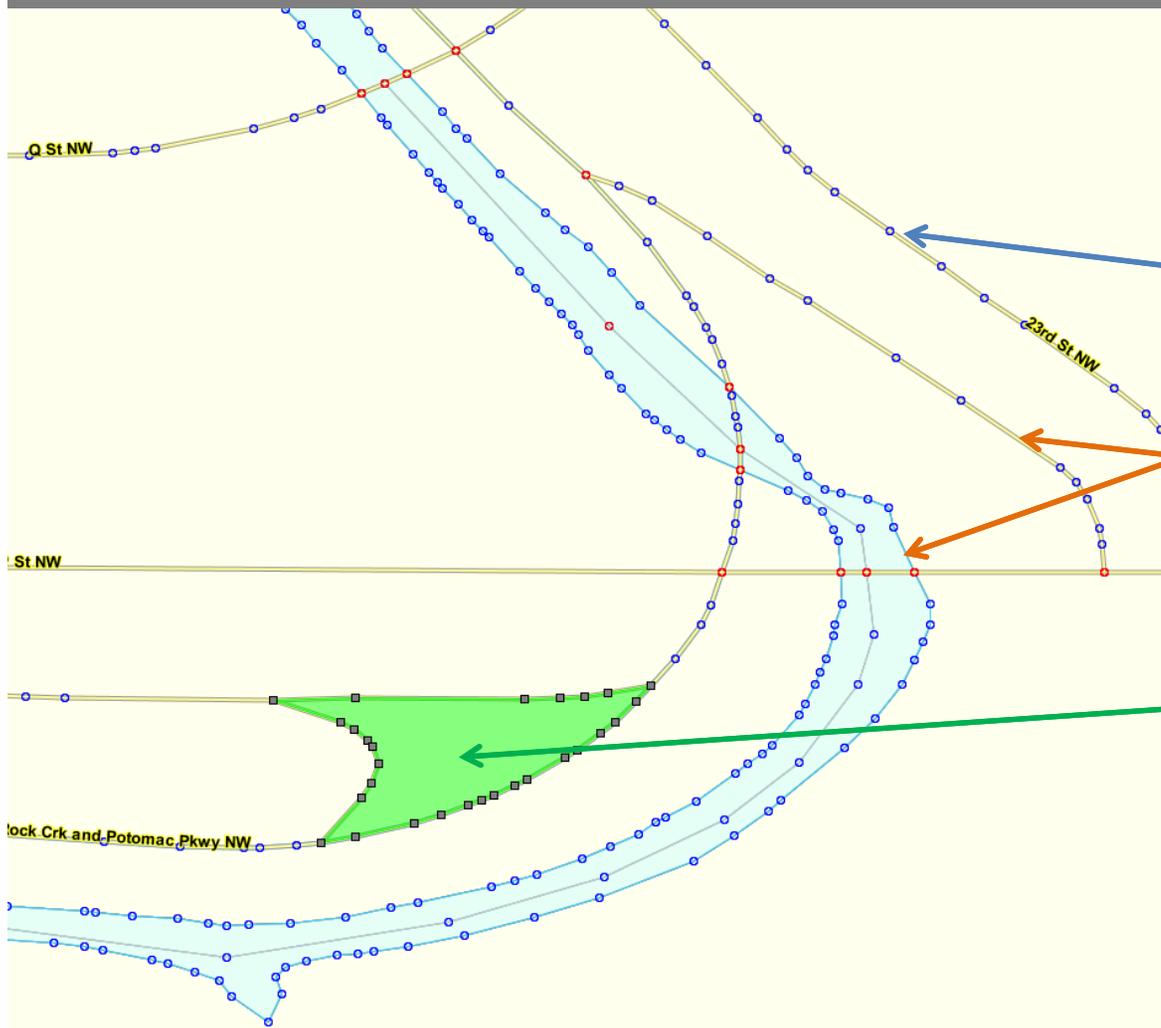

GSSI Initiative Participants

- Phase 1 states (3)
- Phase 2 states (3)
- Phase 1 counties (48), AIAs (1)
- Phase 2 Wave 1 counties (43), AIAs (2)
- Phase 2 Wave 2 counties (77)
- Phase 1 places (6)
- Phase 2 Wave 1 places (13), MCDs (2)
- Phase 2 Wave 2 places (20), MCDs (21)

TIGER Structure

- Nodes (Points)
- Edges (Lines)
 - Linear Features (MTFCC)
- Faces (Polygons)

ArcGIS Demonstration

Basemapping:

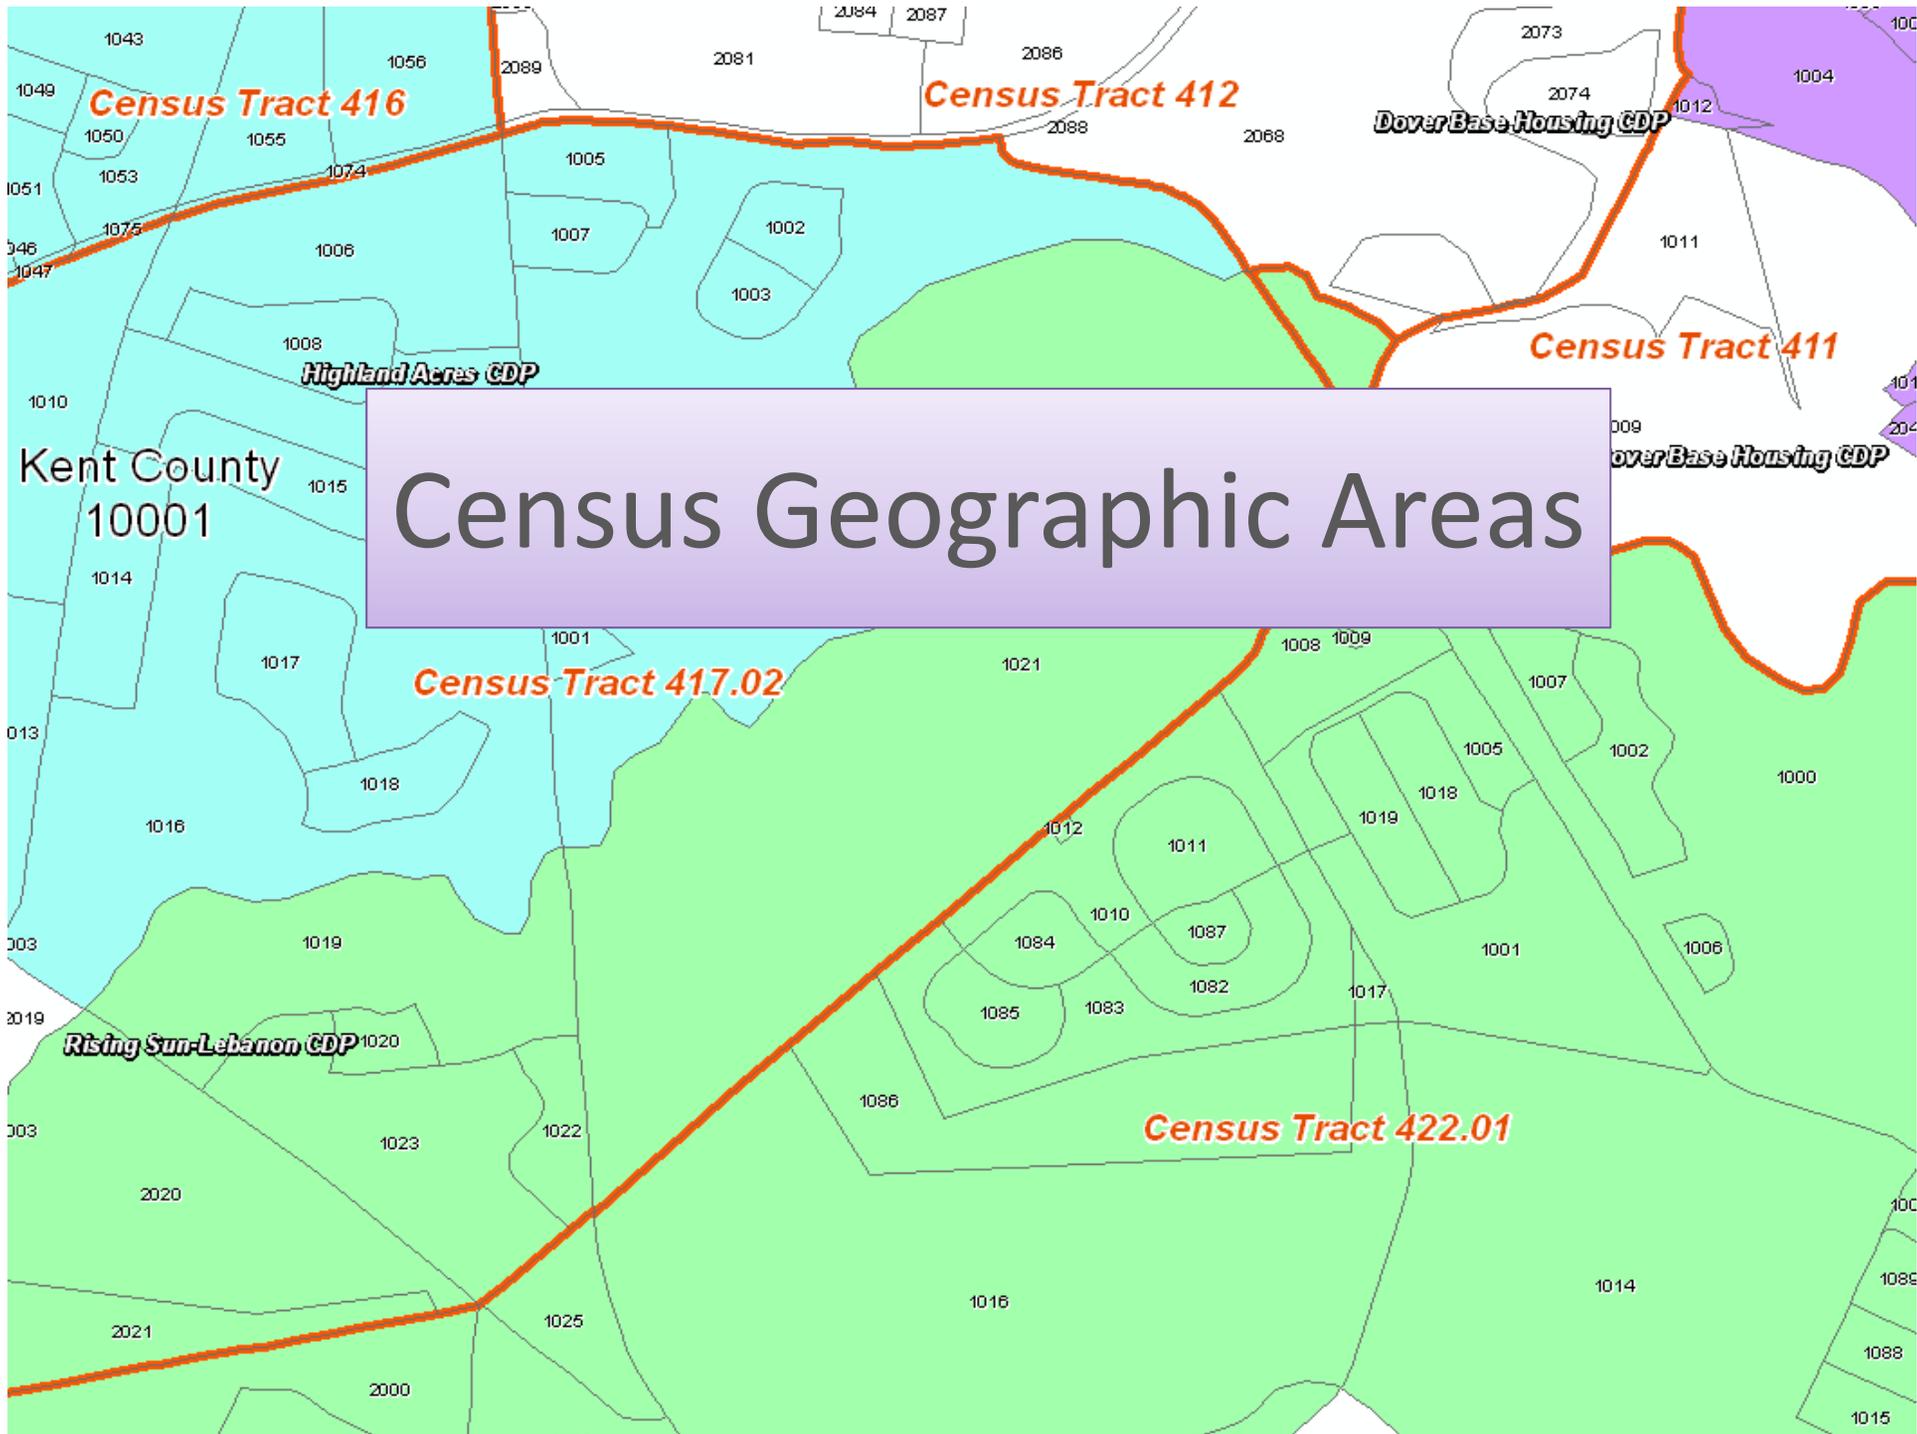

- TIGERWeb – tigerWMS

Analysis:

- Edge/Linear Feature Download
 - MTFCC mapping
 - Spatial Metadata Identification (SMID)

www.census.gov

Census Geographic Areas

Census Tract 416

Census Tract 412

Census Tract 411

Census Tract 417.02

Census Tract 422.01

Kent County
10001

Dover Base Housing CDP

Highland Acres CDP

Dover Base Housing CDP

Rising Sun-Lebanon CDP

Data Aggregation & Geocoding

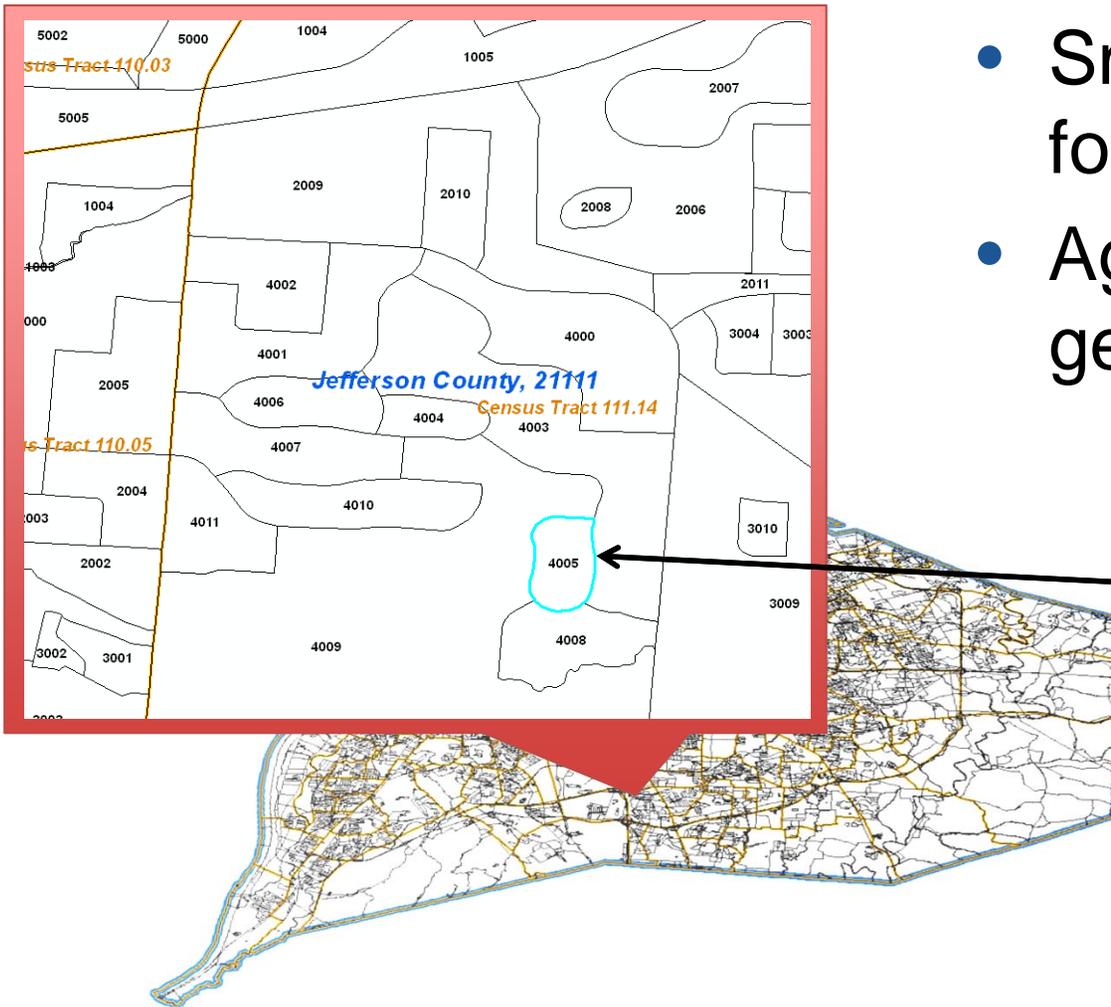

- Decennial Census: Summary
Level Statistical Data

- Individual/household data confidential for 72 years
 - 1940 Census Records Released April 2012
- Data geocoded to Census Tabulation Block
 - Participant & Canvassing programs
- Nesting of larger geographies allows for aggregation of block level data

Census Tabulation Blocks

- Smallest geographic unit for data tabulation
- Aggregated to larger geographies as needed

Highlighted Block Geocode:
211110111144005

ArcGIS Demonstration

Basemapping:

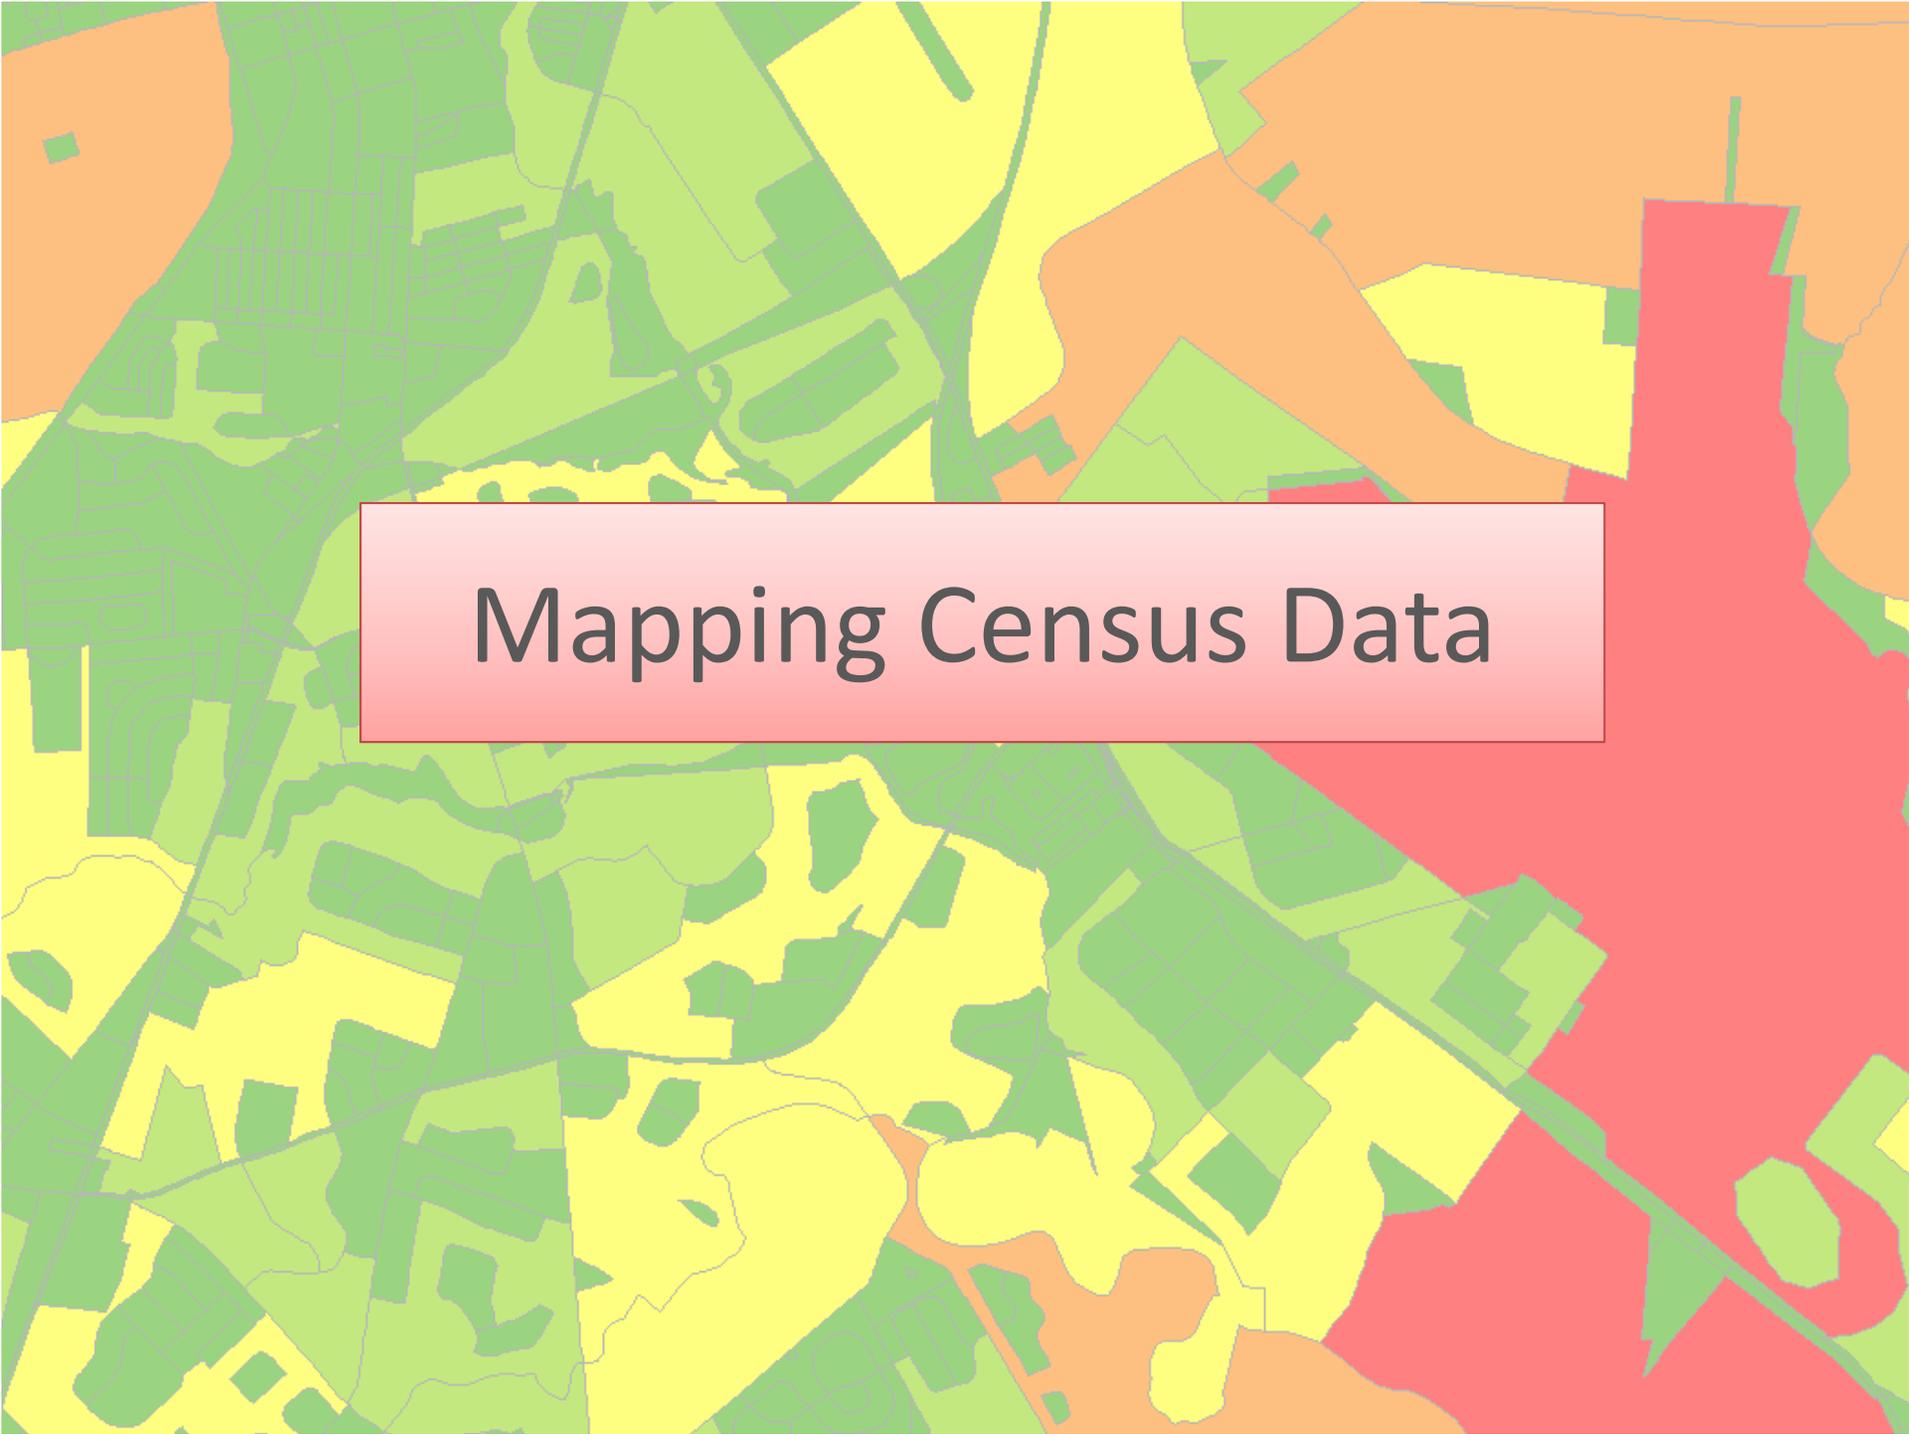

- TIGERWeb REST – tigerWMS_Current

Geographic Areas

- File Acquisition
- GEOID Components
- Spatial Selection

www.census.gov

A map showing census data with various colored regions (green, yellow, orange, red) and a central text box. The map is divided into irregular shapes representing different census tracts or blocks, each filled with a different color. The colors include shades of green, yellow, orange, and red. A central text box with a light red background and a thin red border contains the text "Mapping Census Data".

Mapping Census Data

Mapping Census Data

- 2 Components
 - Data (based on geographic extent)
 - Geographic files
- Be Aware of Data/Geog Vintages
 - If not, 'holes' in map may occur
 - 2010 Census data -> 2010 TIGER .shps

Obtaining Census Datasets

- Raw Datasets

- FOR EXPERIENCED DATA USERS...many tables, codes, fields
- Good for mapping large quantities of data (e.g. all tab blocks/county, all tracts/state, etc.)
- Requires joining to TIGER shapefiles

2010 Census: www.census.gov/rdo

American Community Survey: www.census.gov/acs

Economic Census: www.census.gov/econ

Obtaining Census Datasets

- American FactFinder
 - Faster data acquisition
 - Data thresholds (230 column limitation)
 - Requires joining to TIGER shapefiles

AFF: <http://factfinder2.census.gov>

Obtaining Census Datasets

- TIGER Joined w/ Demographic Data
 - Fastest data acquisition
 - Limited socio-economic variables*
 - No data manipulation prior to joining/mapping

<https://www.census.gov/geo/maps-data/tiger-data.html>

ArcGIS Demonstration

Mapping Census Data

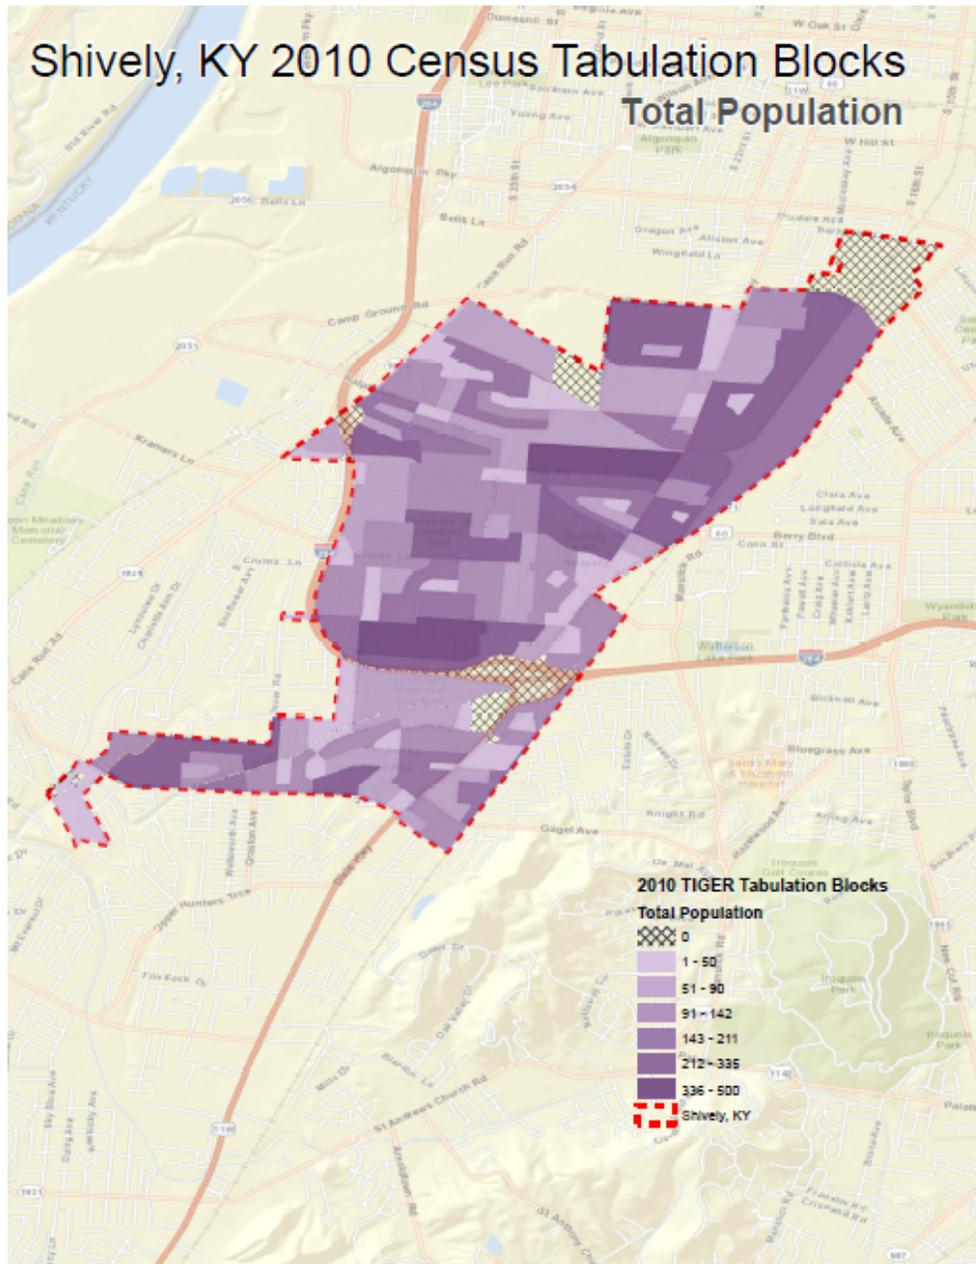

2010 Census: Total Population by Tabulation
Block within Shively City, KY

2007-2001 ACS 5-Year: Lightning Demo

Method: TIGER/Line Shapefiles Pre-joined with
Demographic Data

Final Result?

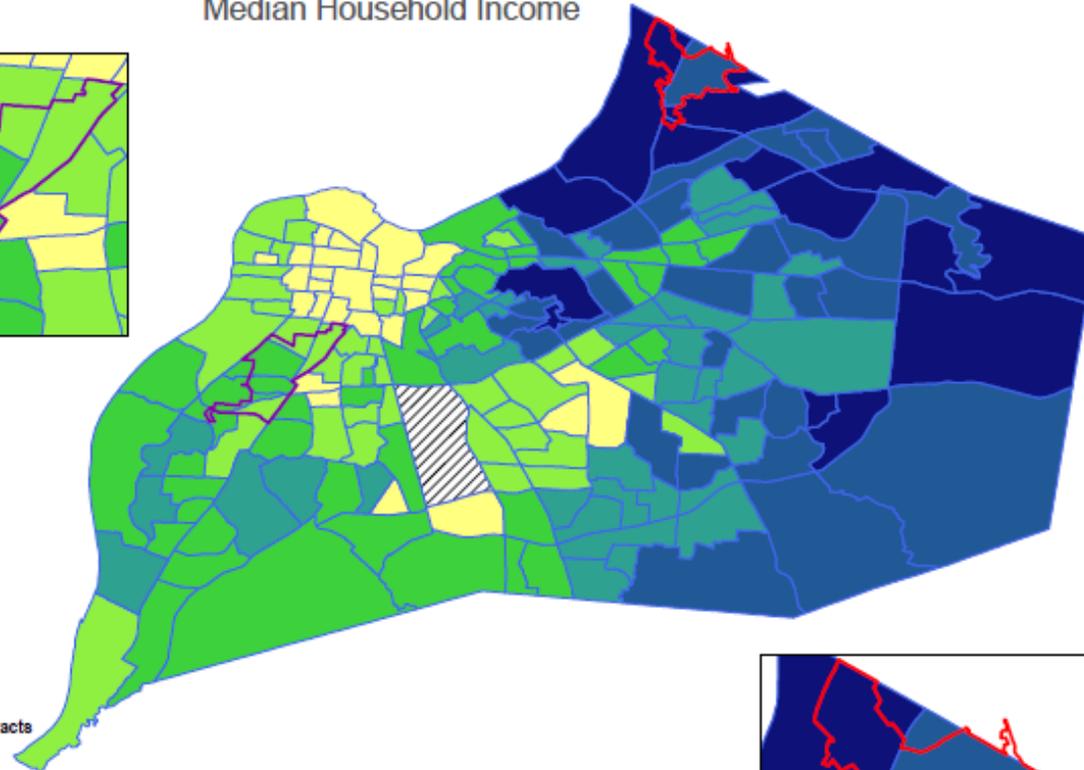

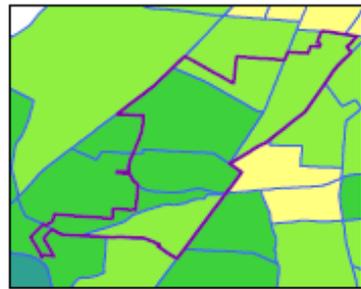

- More populous along main arteries (264/60/60B)
- Null population along interchanges & business areas

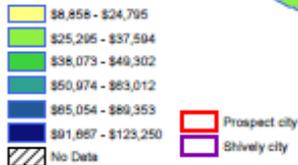

Other Map Examples

Jefferson County, KY Census Tracts
Median Household Income

Jefferson County, KY Census Tracts

Median Household Income

0 1 2 4 6 8 Miles

Source: 2011 American Community Survey, 5-year Estimate

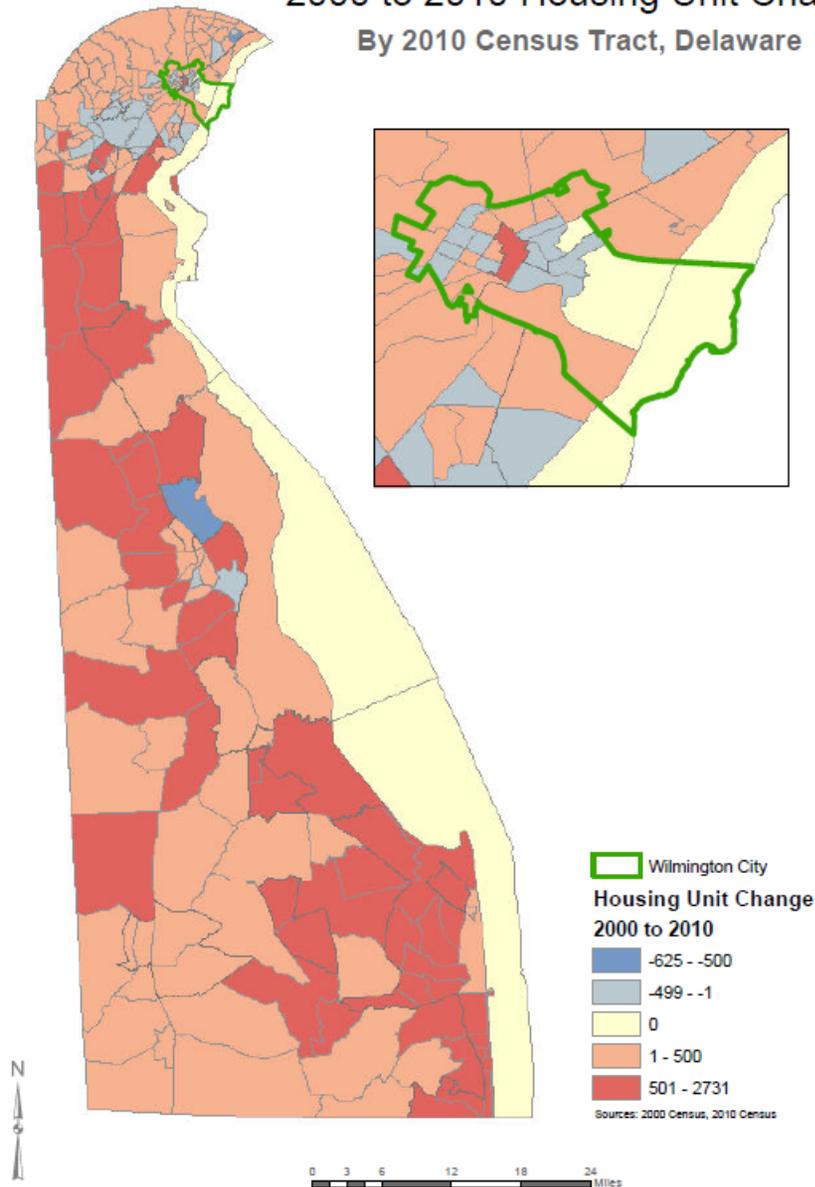

American
Community
Survey Data
(socioeconomic)

Available every
year in 1-year,
3-year, & 5-year
estimates

2000 to 2010 Housing Unit Change
By 2010 Census Tract, Delaware

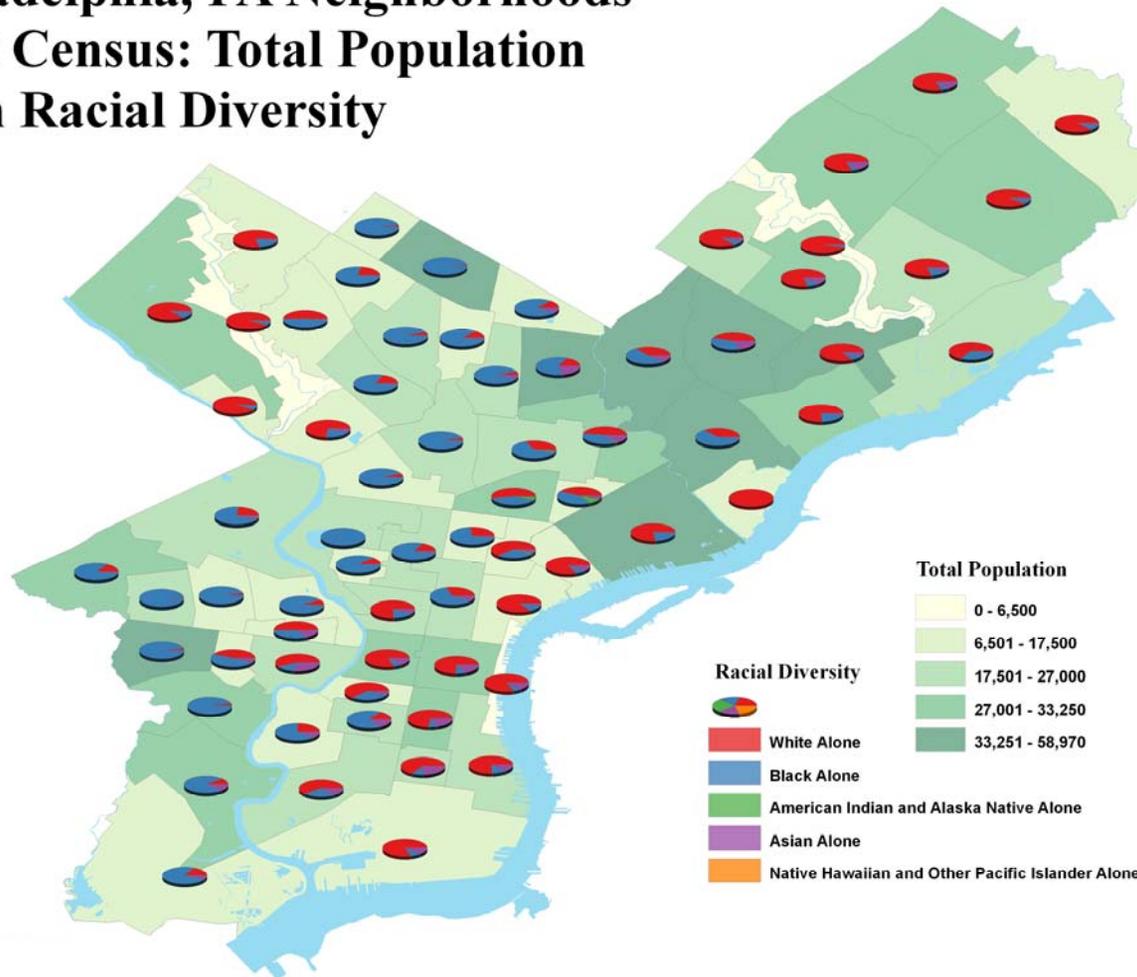

Other Map Examples (cont)

- Decennial change detection
- Data manipulation may be needed if/when Geographies also change through decade

Philadelphia, PA Neighborhoods 2010 Census: Total Population With Racial Diversity

Source: U.S. Census Bureau, 2010 Census Redistricting Data Summary File

Other Map Examples (cont)

- Nonstandard Geography?
- Identify Census geographic level that “plays nice” with your geography
- Spatial join as needed

T: PPS Philadelphia City Council

Post-Census Geographic Areas

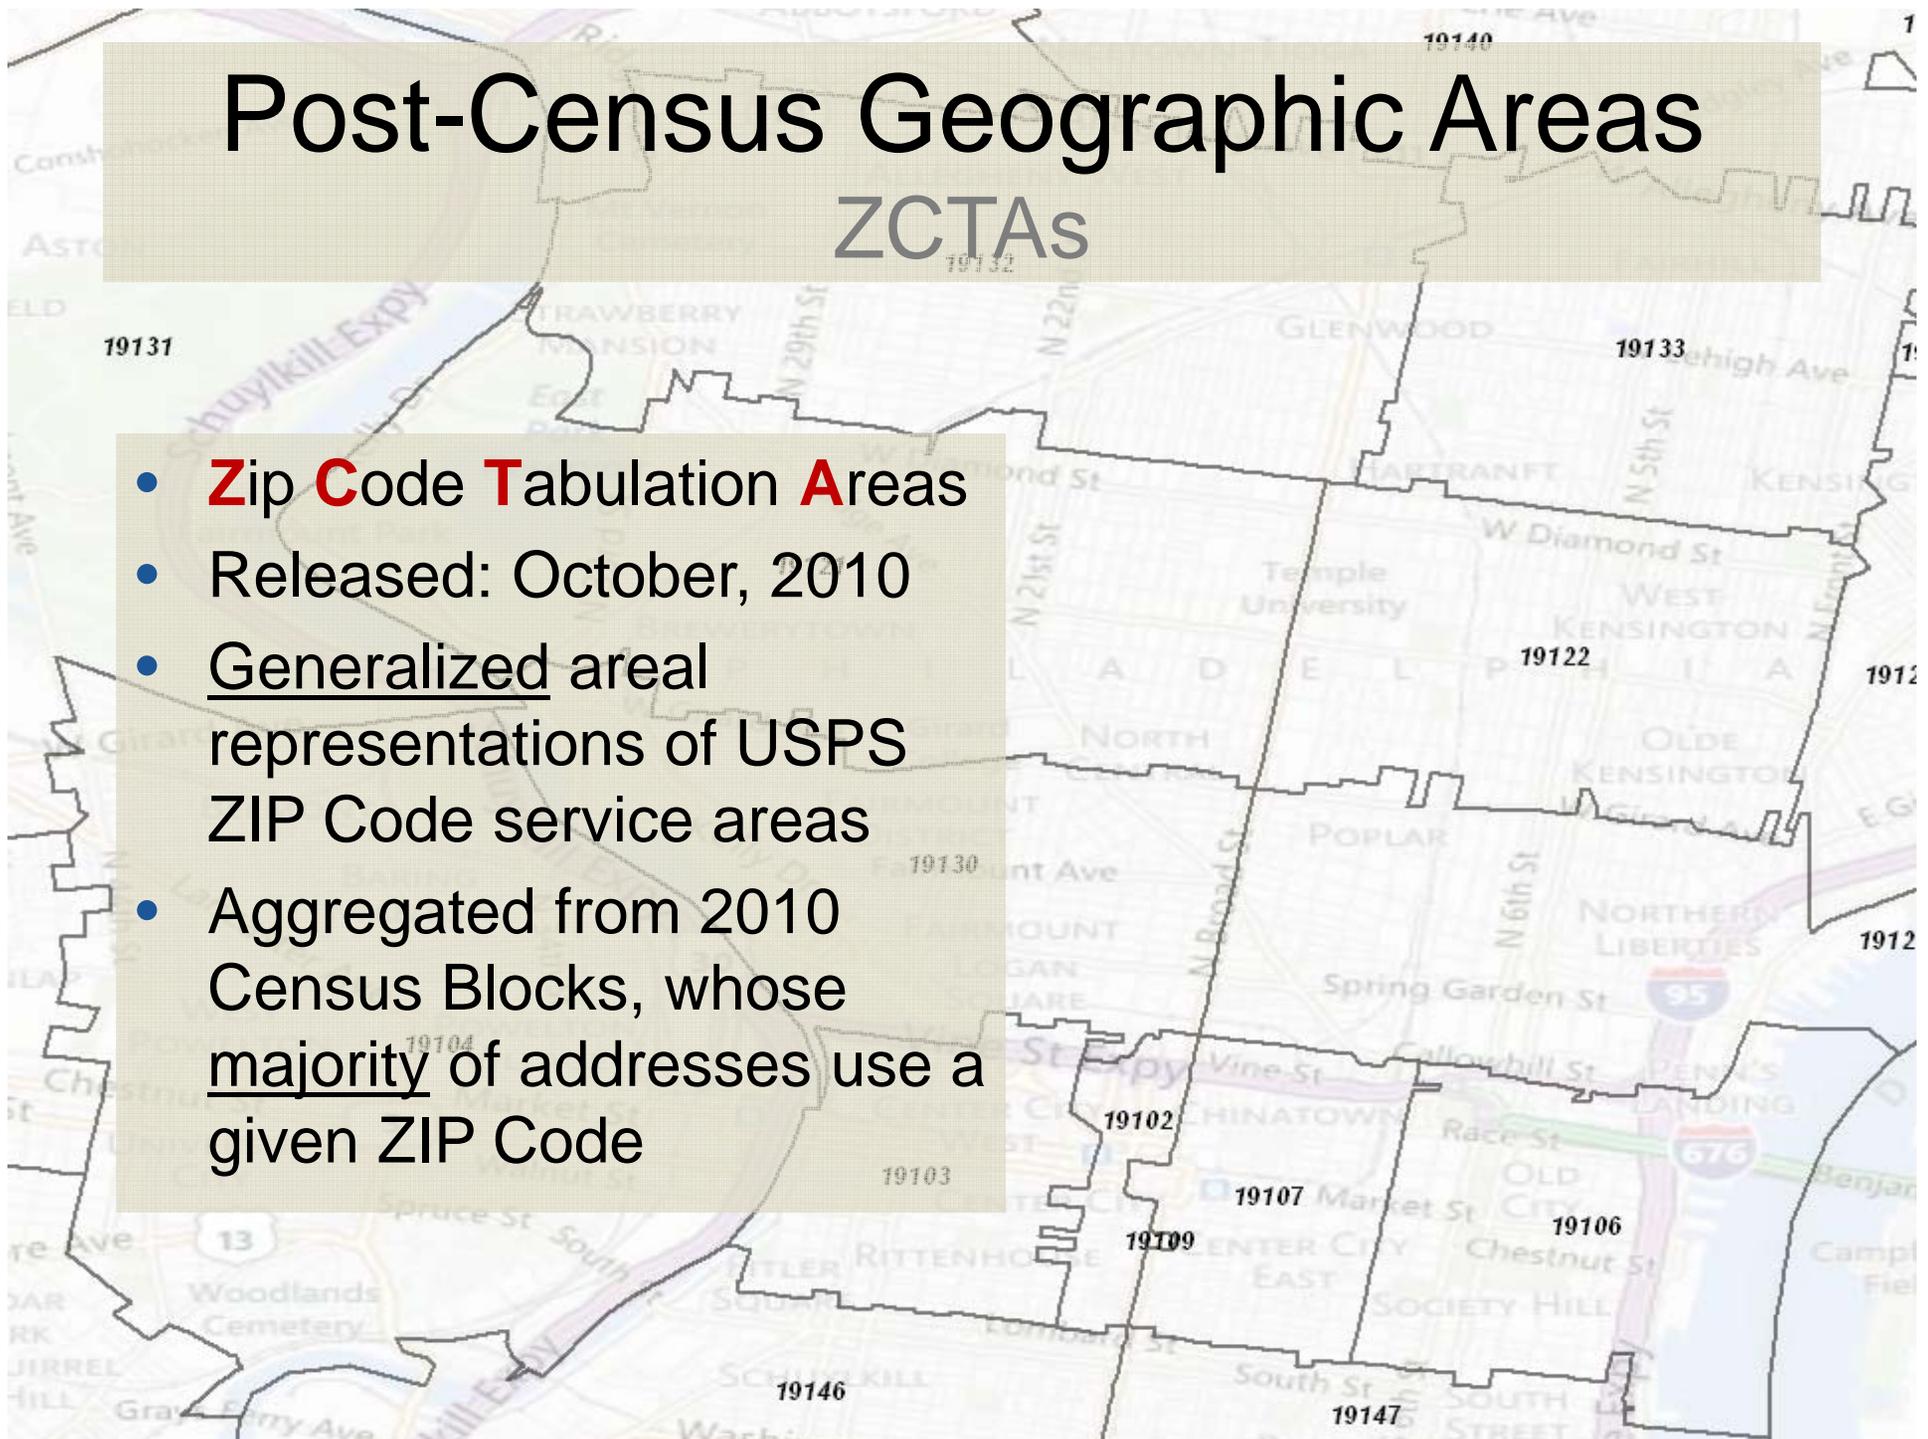

- ZCTAs
- Urban/Rural Areas
- PUMAs
- Congressional & State Legislative Districts
- Legal Boundaries (BAS)

Post-Census Geographic Areas

ZCTAs

- **Zip Code Tabulation Areas**
- Released: October, 2010
- Generalized areal representations of USPS ZIP Code service areas
- Aggregated from 2010 Census Blocks, whose majority of addresses use a given ZIP Code

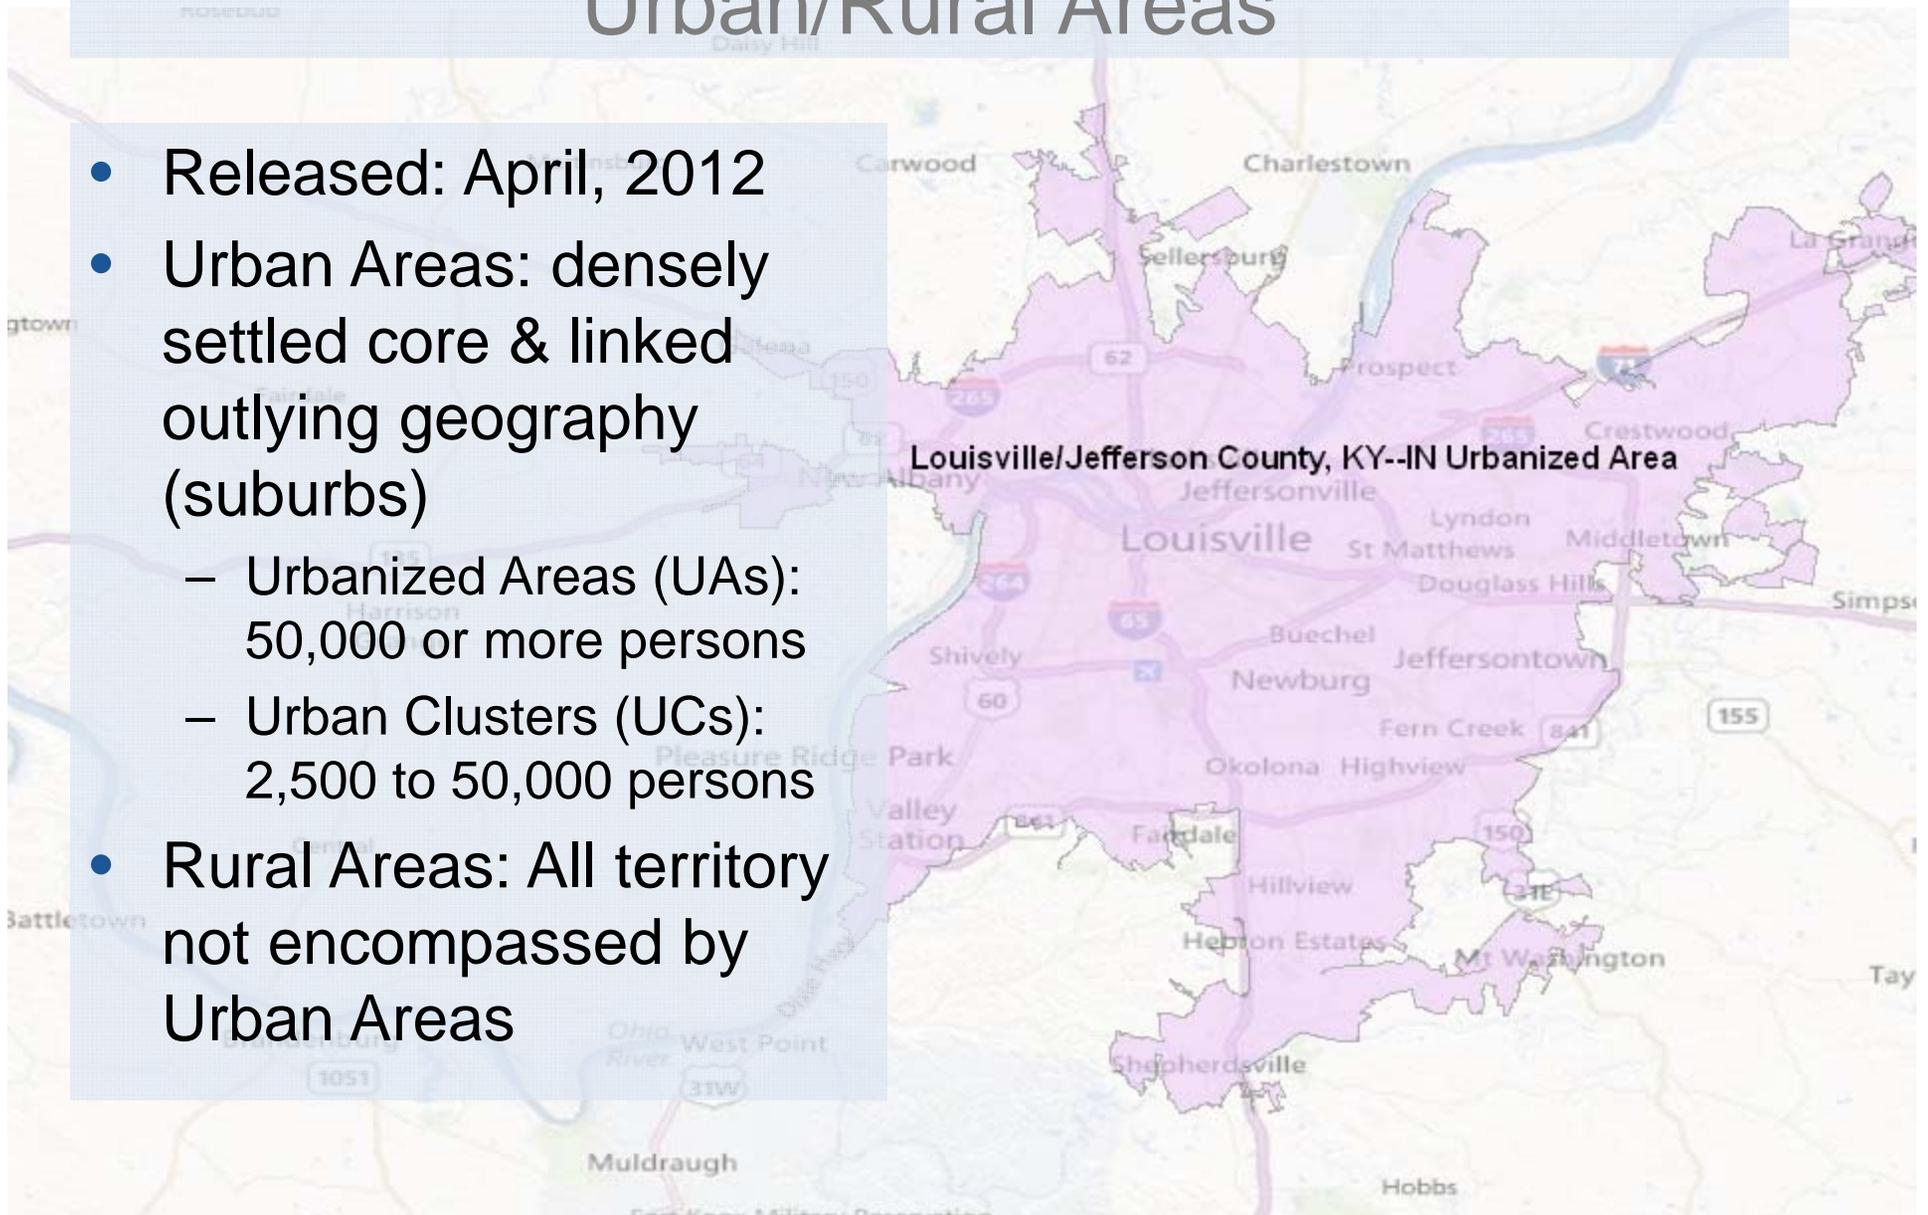

Post-Census Geographic Areas

Urban/Rural Areas

- Released: April, 2012
- Urban Areas: densely settled core & linked outlying geography (suburbs)
 - Urbanized Areas (UAs): 50,000 or more persons
 - Urban Clusters (UCs): 2,500 to 50,000 persons
- Rural Areas: All territory not encompassed by Urban Areas

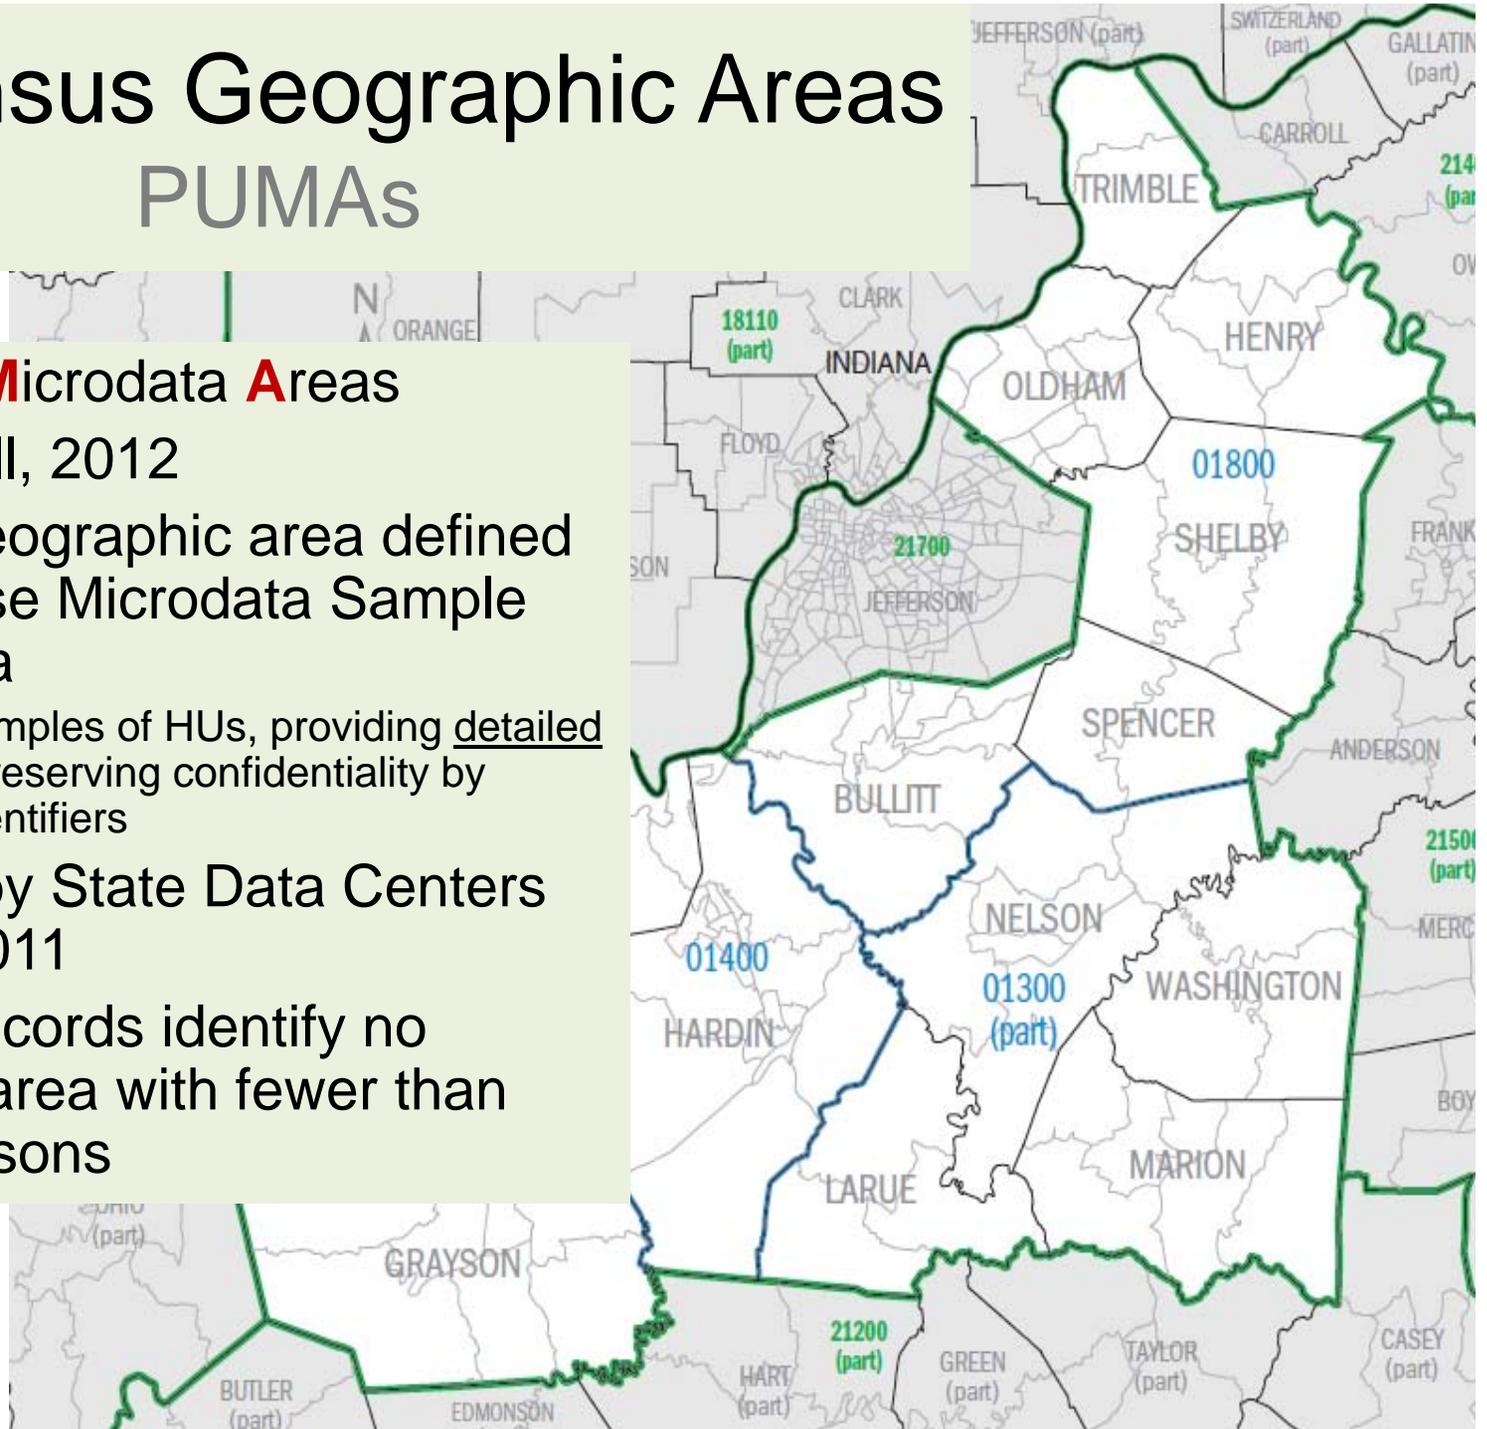

Louisville/Jefferson County, KY--IN Urbanized Area

Post-Census Geographic Areas

PUMAs

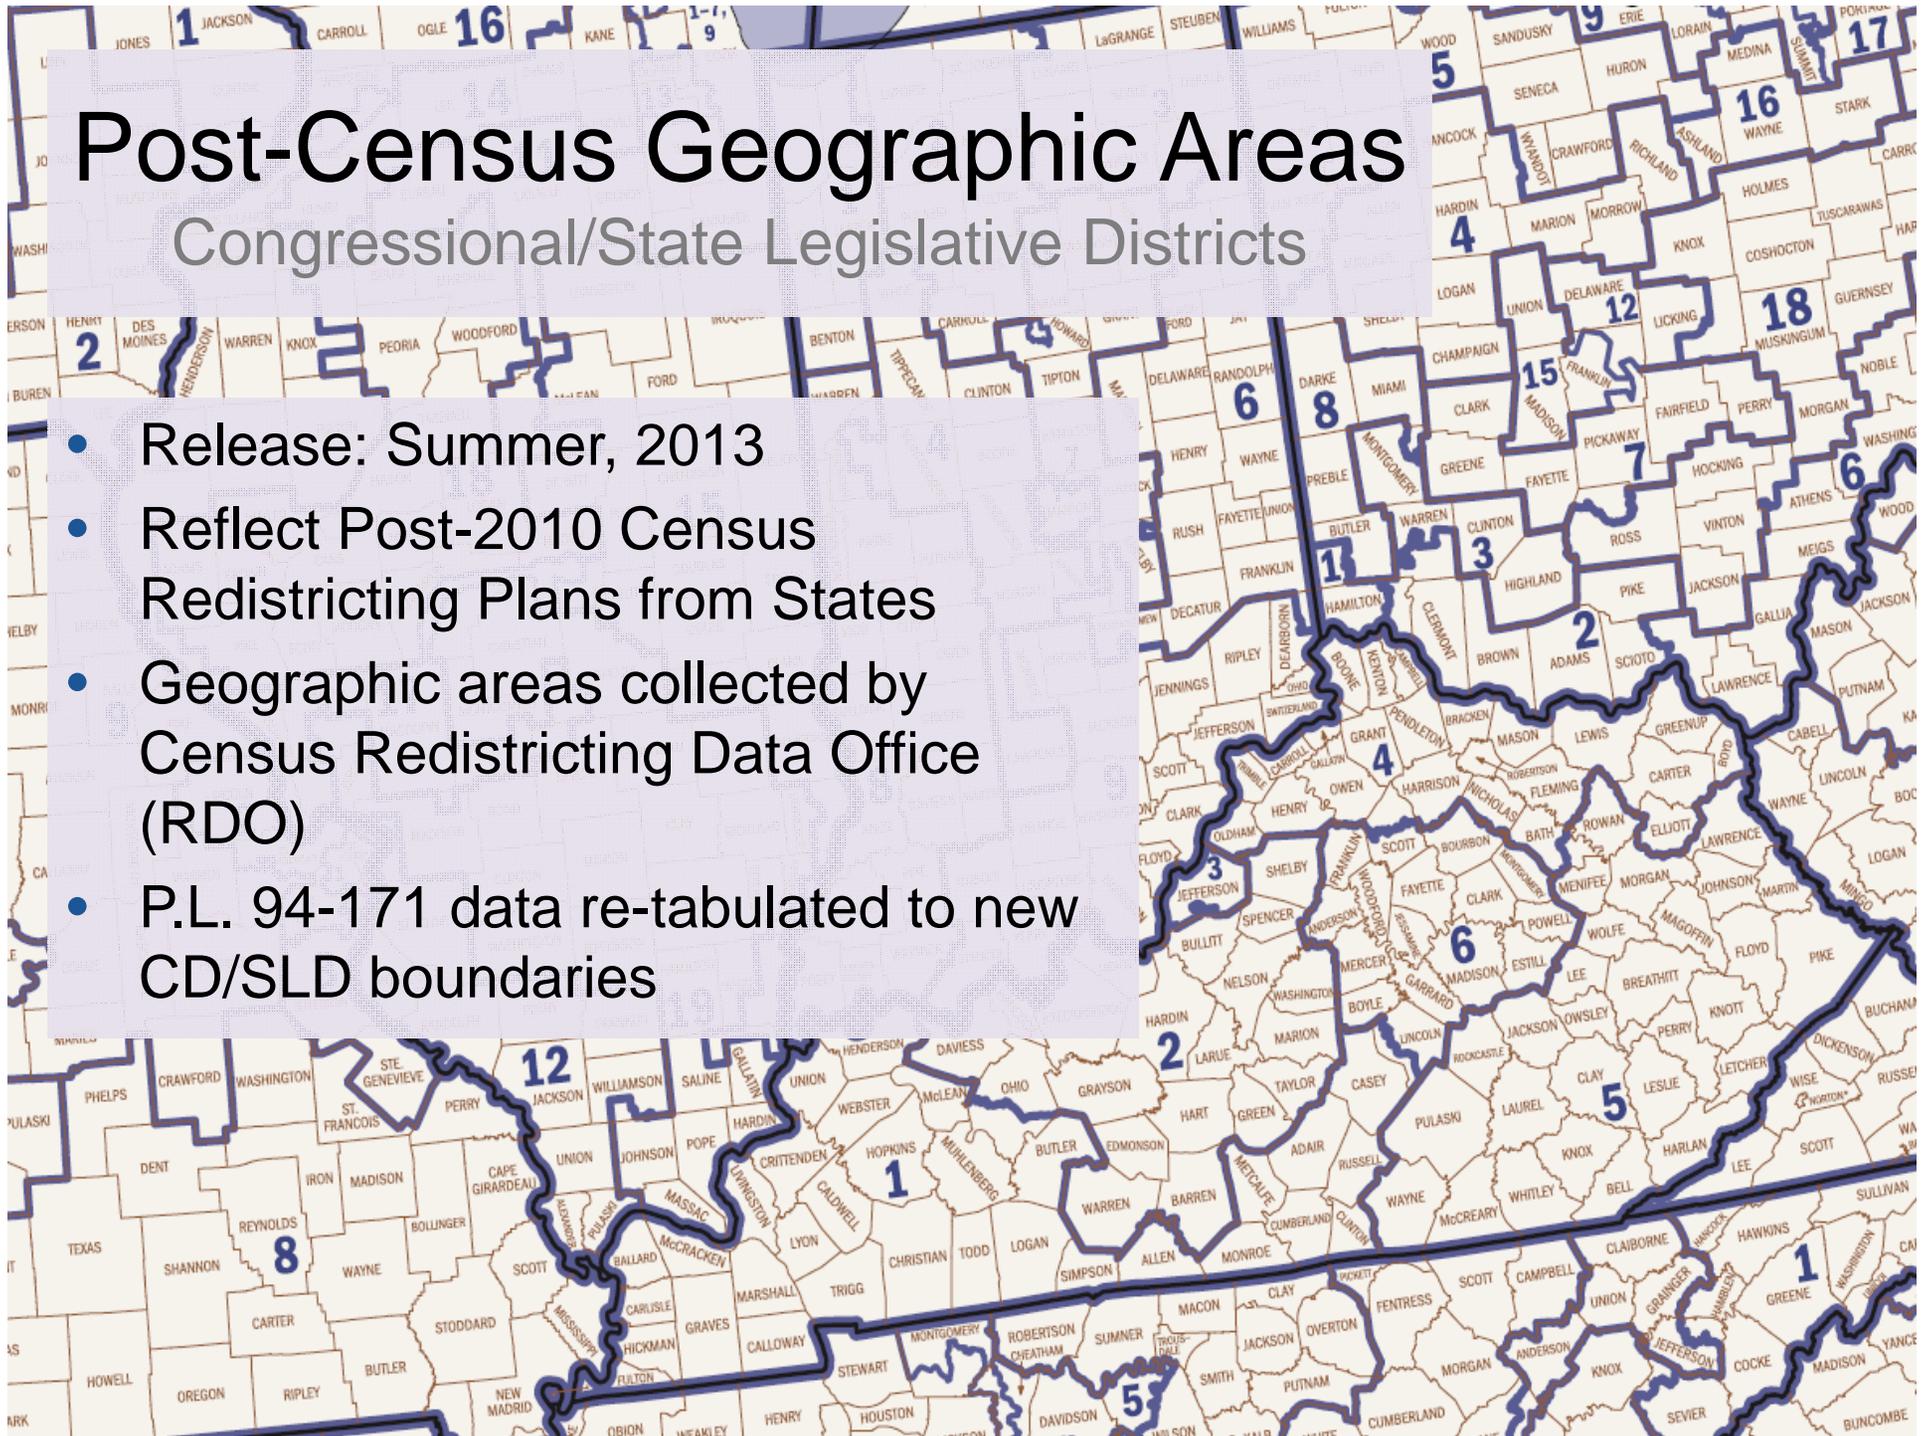

- **P**ublic **U**se **M**icrodata **A**reas
- Release: Fall, 2012
- Statistical geographic area defined for Public Use Microdata Sample (PUMS) data
 - 1% & 5% samples of HUs, providing detailed data while preserving confidentiality by removing identifiers
- Delineated by State Data Centers (SDCs) in 2011
- Microdata records identify no geographic area with fewer than 100,000 persons

Post-Census Geographic Areas

Congressional/State Legislative Districts

- Release: Summer, 2013
- Reflect Post-2010 Census Redistricting Plans from States
- Geographic areas collected by Census Redistricting Data Office (RDO)
- P.L. 94-171 data re-tabulated to new CD/SLD boundaries

Post-Census Geographic Areas

Legal Boundaries (BAS)

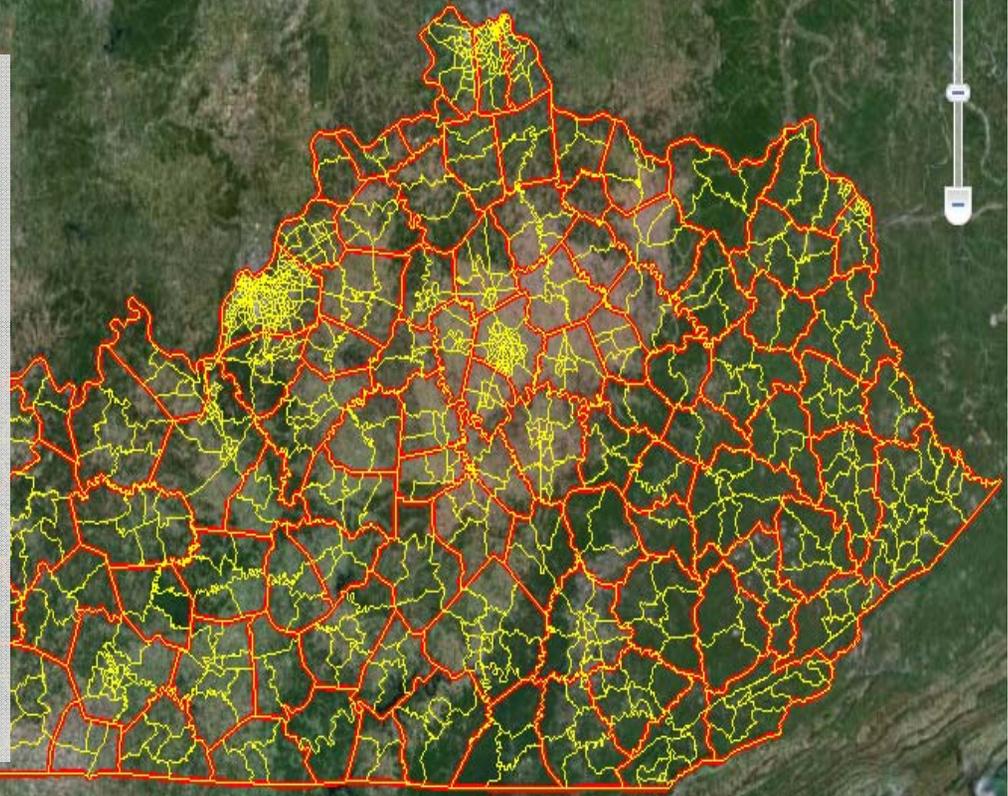

- **B**oundary & **A**nnexation **S**urvey
- Yearly program updating legal boundaries & names of all governmental units
- Decennial Census
- Economic Census
- Population Estimates Program
- American Community Survey

~~2014
BAS~~

New Geographic Prototypes

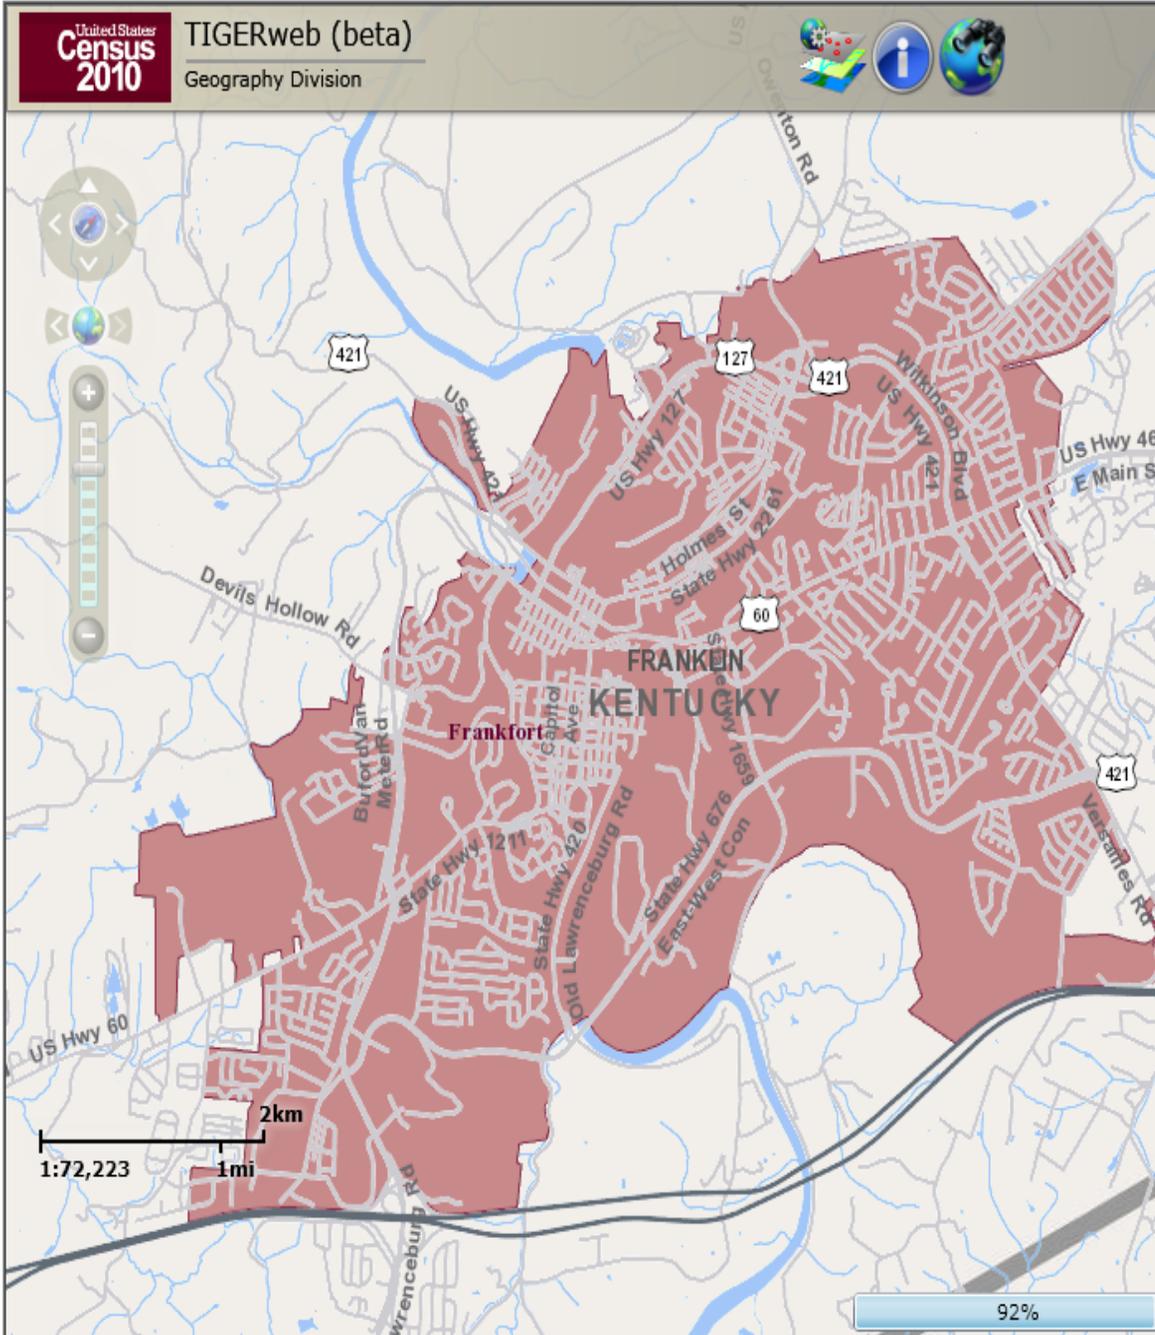

Google Earth KMLs

- Detailed & Generalized layers at County and Tract Levels
- GEOID Attribute Only
- PROTOTYPES – Input from users requested to build a more useful product

TIGERweb

- Web Mapping Service (WMS)
- View, query, select Census geographic areas
- Does not include demographic data

Digital Geographic Products: Summary

TIGER/Line Shapefiles

Data/Mapping Exercise

Thematically map number and/or concentration of bachelor's degrees obtained throughout every county in KY

County with largest number of bachelor's degrees?

County with highest percentage of bachelor's degrees?

Data/Mapping Exercise

TIPS

- Pre-joined...
- Metadata...
- See “Cheat Sheet” in folder for step by step instructions
- ASK QUESTIONS!

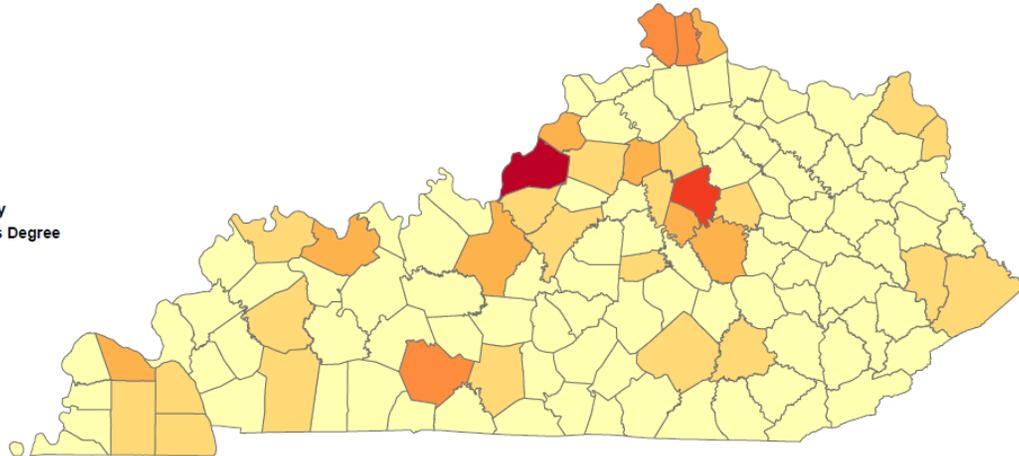

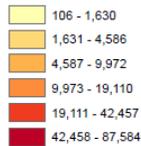

Thematically map number and/or concentration of bachelors degrees obtained throughout every county in KY

Data/Mapping Exercise

RESULTS

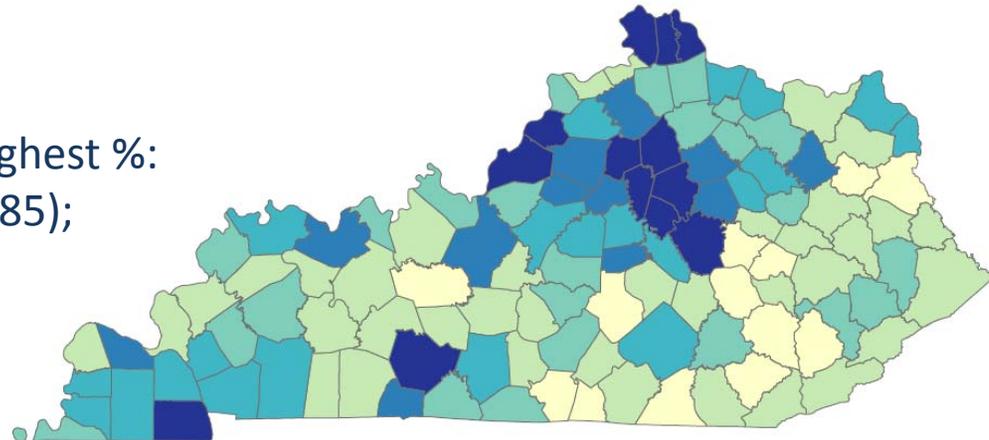

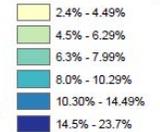

ACS_11_5YR_County
TOTAL Pop Bachelors Degree

County w/ highest #:
Jefferson (21111);
87,584

County w/ highest %:
Oldham (21185);
23.7%

ACS_11_5YR_County
% Pop Bachelors Degree

Thematically map number and/or concentration of bachelors degrees obtained throughout every county in KY
